

Quiz (13-9-2019)

Please submit screenshots after making the changes as per the assignment below. Also mention which code units you have modified.

1. On the pages where you display data (like course, advisor etc), put a link back to the query page, or put an exit option to terminate the program. These two can be buttons on the result pages.
2. Remove login page.
3. Does the program handle error like : student not found ? Add this feature.

Please name your submissions in usual fashion.
